YOUR NEW CHALLENGE?
PRODUCT OWNER (m/f/d)

We are looking for a highly motivated Product Owner who joins us on our way towards a climate-friendly and data-driven transport sector.

Do you want to become part of our mission to get transport emissions to net-zero by enabling our logistics clients to make the right decisions?

WHAT WE OFFER YOU

- A purposeful position, contributing to carbon-reduction
- Inspiring work environment in the in the beautiful Speicherstadt
- The opportunity to quickly take responsibility and bring in your ideas
- Active support in learning new skills quickly
- A lot of flexibility in designing your own tasks
- A motivating work atmosphere to make a difference

YOUR ROLE

- You will shape the product vision of shipzero based on customer and market insights, working in close collaboration with our founders
- You translate the product vision into a tangible roadmap, prioritize the product backlog accordingly and break it down into user stories
- You guide an interdisciplinary team of software developers and data engineers to achieve the sprint goals
- You support the development team in improving team performance
- You conceptualize new features and define the requirements for our shipzero emission platform in the web-app and API
- You facilitate workshops and connect the strategic and technical aspects of new features in development

YOUR PROFILE

- You have professional experience as product owner or product manager and like to work in the interface between product and tech
- You have a good technical understanding of data-driven processes to craft requirements and user stories
- You have a proficient understanding of agile methods that help you improving the value of outputs created by the entire team
- Ideally, you are familiar with B2B software environments and users, e.g., in business intelligence, logistics software, ERP or the like
- You hold an academic degree – a background in mobility, logistics, or business informatics is a plus
- And finally, you have a good sense of humor 😊
